Version number 3

Revision 26.03.2018

SECTION 1: Identification of the substance/mixture and of the company/undertaking

· 1.1 Product identifier

· Trade name: Interflon Grease OG (aerosol)

• 1.2 Relevant identified uses of the substance or mixture and uses advised against No further relevant information available.

· Application of the substance / the mixture Lubricant

1.3 Details of the supplier of the safety data sheet
Manufacturer/Supplier: Interflon b.v.
P.O. Box 1070
NL-4700 BB Roosendaal
The Netherlands
Tel: +31(0)165.55.39.11
Email: service@interflon.com
www.interflon.com

• Further information obtainable from: Product safety department

• 1.4 Emergency telephone number: UK National Poisons Emergency number: +44 870 600 6266

#### **SECTION 2: Hazards identification**

· 2.1 Classification of the substance or mixture

· Classification according to Regulation (EC) No 1272/2008

| Aerosol 1 H222-H229 Extremely flammable aerosol. Pressurised containe     | er: May burst if heated. |
|---|--------------------------|
| Skin Irrit. 2 H315 Causes skin irritation.                                |                          |
| STOT SE 3 H336 May cause drowsiness or dizziness.                         |                          |
| Asp. Tox. 1 H304 May be fatal if swallowed and enters airways.            |                          |
| Aquatic Chronic 3 H412 Harmful to aquatic life with long lasting effects. |                          |

· 2.2 Label elements

· Labelling according to Regulation (EC) No 1272/2008

The product is classified and labelled according to the CLP regulation.

· Hazard pictograms

· Signal word Danger

Hazard-determining components of labelling: Hydrocarbons, C7, n-alkanes, isoalkanes, cyclics Hydrocarbons, C6, isoalkanes, <5% n-hexane n-hexane cyclohexane
Hazard statements H222-H229 Extremely flammable aerosol. Pressurised container: May burst if heated. H315 Causes skin irritation. H336 May cause drowsiness or dizziness. H412 Harmful to aquatic life with long lasting effects.

(Contd. of page 1)

· Precautionary statements

P210 Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking.

*P211* Do not spray on an open flame or other ignition source.

P251 Do not pierce or burn, even after use.

P261 Avoid breathing mist/vapours/spray.

P280 Wear protective gloves.

P410+P412 Protect from sunlight. Do not expose to temperatures exceeding 50 °C/122 °F.

#### · 2.3 Other hazards

· Results of PBT and vPvB assessment

• PBT: Material does not meet the criteria for PBT according to Regulation (EC) No 1907/2006, Annex XIII.

• vPvB: Material does not meet the criteria for vPvB according to Regulation (EC) No 1907/2006, Annex XIII.

#### **SECTION 3: Composition/information on ingredients**

#### · 3.2 Mixtures

· Description:

*Mixture of mineral and vegetable oils, calcium-lithium complex thickener, solvent, additives and Teflon*®. *Propellant gas propane, butane and isobutane.* 

| · Dangerous components:  |   |               |

#### · SVHC

This product does not contain "very worrisome substances" (SVHC) that are very dangerous to human health or the environment. (SVHC < 0.1% (w/w) Regulation (EC) No. 1907/2006 (REACH), Article 57).

• Additional information:

Note: Any entry in the EC column that begins with the number "9" is a Provisional List Number provided by ECHA pending publication of the official EC Inventory Number for the substance. See Section 16 for additional CAS number information for the substance.

(Contd. on page 3)

Printing date 26.03.2018

Version number 3

Revision 26.03.2018

Trade name: Interflon Grease OG (aerosol)

See SDS Section 16 for full text of hazard statements.

#### **SECTION 4: First aid measures**

- 4.1 Description of first aid measures
- General information: Immediately remove any clothing soiled by the product.
- · After inhalation:
- Remove person to fresh air and keep comfortable for breathing. In case of unconsciousness place patient stably in side position for transportation. Call a POISON CENTER/doctor if you feel unwell.

#### • After skin contact:

- Take off immediately all contaminated clothing.
- Wash with plenty of soap and water.
- If skin irritation occurs: Get medical advice/attention.

#### • After eye contact:

- *Rinse cautiously with water for several minutes. If eye irritation persists: Get medical advice/attention.*
- After swallowing: If symptoms persist consult doctor.
- **4.2 Most important symptoms and effects, both acute and delayed** Acute and delayed effects are indicated in sections 2 and 11.
- 4.3 Indication of any immediate medical attention and special treatment needed
- No further relevant information available.

#### **SECTION 5: Firefighting measures**

#### 5.1 Extinguishing media

 Suitable extinguishing agents: Use fire extingshing methods suitable to surrounding conditions CO2, sand, powder, water spray. Foam
 5.2 Special hazards arising from the substance or mixture

#### *Formation of toxic gases is possible during heating or in case of fire. Carbon monoxide (CO) Hydrogen fluoride and other fluoride compounds.*

• 5.3 Advice for firefighters

#### • Protective equipment:

- Wear self-contained respiratory protective device.
- Use personal protective equipment (EN469).
- · Additional information
- Dispose of fire debris and contaminated fire fighting water in accordance with official regulations.

#### **SECTION 6:** Accidental release measures

- 6.1 Personal precautions, protective equipment and emergency procedures Wear protective equipment. Keep unprotected persons away. Particular danger of slipping on leaked/spilled product.
- 6.2 Environmental precautions:
- Do not allow to enter sewers/ surface or ground water.

(Contd. on page 4)

GB

Printing date 26.03.2018

Version number 3

Revision 26.03.2018

Trade name: Interflon Grease OG (aerosol)

(Contd. of page 3)

Inform respective authorities in case of seepage into water course or sewage system.

• **6.3 Methods and material for containment and cleaning up:** Clear spills immediately. Dispose contaminated material as waste according to item 13. Ensure adequate ventilation. Remove residues with alkaline cleaning agent.

• 6.4 Reference to other sections

See Section 8 for information on personal protection equipment.

See Section 13 for disposal information.

#### **SECTION 7: Handling and storage**

· 7.1 Precautions for safe handling Ensure good ventilation/exhaustion at the workplace.

· Information about fire - and explosion protection:

Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking.

Do not spray on an open flame or other ignition source. Pressurised container: protect from sunlight and do not expose to temperatures exceeding 50°C, i.e. electric lights. Do not pierce or burn, even after use.

· 7.2 Conditions for safe storage, including any incompatibilities

• Storage:

• Requirements to be met by storerooms and receptacles:

Store in accordance with local/regional/national/international regulations. Observe official regulations on storing packagings with pressurised containers. Protect from sunlight. Do not expose to temperatures exceeding 50 °C/122 °F. Store in a well-ventilated place.

Keep container tightly closed.

Store in a dry place.

· Information about storage in one common storage facility: Not required.

• Further information about storage conditions: Store in a cool place.

• 7.3 Specific end use(s) No further relevant information available.

**SECTION 8: Exposure controls/personal protection** 

• Additional information about design of technical facilities: No further data; see item 7.

· 8.1 Control parameters

| · Ingredients with limit | it values that require monitoring at the workplace:   |
|--------------------------|---|

### SECTION 10: Stability and reactivity

• 10.1 Reactivity No reactivity hazards known under normal storage and use conditions.

· 10.2 Chemical stability Stable under normal storage and use conditions.

• Thermal decomposition / conditions to be avoided: To avoid thermal decomposition do not overheat.

- · 10.3 Possibility of hazardous reactions No dangerous reactions known.
- 10.4 Conditions to avoid

Conditions to be avoided: sun-ray, temperatures above 50°C, open fire, piercing can.

- Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking.
- 10.5 Incompatible materials: Strong oxidising agents.

· 10.6 Hazardous decomposition products:

Carbon monoxide and partially combusted carbohydrates can be released during thermal decomposition. Fluoride compounds can be released from 400 C.

### **SECTION 11: Toxicological information**

· 11.1 Information on toxicological effects

• Acute toxicity Based on available data, the classification criteria are not met.

· LD/LC50 values relevant for classification:

106-97-8 butane (Nota K, <0,1% 1,3-butadiene)

Inhalative LC50/4 h 253599 ppm (Rat)

### **SECTION 12: Ecological information**

#### · 12.1 Toxicity

• Aquatic toxicity:

Harmful to aquatic life with long lasting effects.

110-54-3 n-hexane

LC50 96 hr 2.5 mg/l (Fish)

· 12.2 Persistence and degradability No further relevant information available.

• 12.3 Bioaccumulative potential No further relevant information available.

• 12.4 Mobility in soil No further relevant information available.

• Ecotoxical effects:

· Remark: Harmful to fish

· Additional ecological information:

· General notes:

Do not allow product to reach ground water, water course or sewage system.

Danger to drinking water if even small quantities leak into the ground.

· 12.5 Results of PBT and vPvB assessment

• PBT: Material does not meet the criteria for PBT according to Regulation (EC) No 1907/2006, Annex XIII.

• vPvB: Material does not meet the criteria for vPvB according to Regulation (EC) No 1907/2006, Annex XIII.

| H220 Extremely flammable gas.  |   |
| H225 Highly flammable liquid and vapour.   |   |
| H280 Contains gas under pressure; may explode if he  | eated.  |
| H304 May be fatal if swallowed and enters airways.   |   |
| H315 Causes skin irritation.   |   |
| H336 May cause drowsiness or dizziness.  |   |
| H361f Suspected of damaging fertility.   |   |
| H373 May cause damage to organs through prolonge   | ed or repeated exposure.  |
| H400 Very toxic to aquatic life.   |   |
| H410 Very toxic to aquatic life with long lasting effect   | ets.  |
| H411 Toxic to aquatic life with long lasting effects.  |   |
| Classification according to Regulation (EC) No 1272  | 2/2008  |
| Aerosols   | Bridging principles   |
| Skin corrosion/irritation  | The classification of the mixture is generally based of           |
| Specific target organ toxicity (single exposure)   | the calculation method using substance data according             |
| Hazardous to the aquatic environment - long-term   | to Regulation (EC) No 1272/2008.                                  |
| (chronic) aquatic hazard   |   |
| Aspiration hazard  | Expert judgement  |

Printing date 26.03.2018

Version number 3

Revision 26.03.2018

#### Trade name: Interflon Grease OG (aerosol)

Repr. 2: Reproductive toxicity – Category 2

Asp. Tox. 1: Aspiration hazard - Category 1

(Contd. of page 10) STOT SE 3: Specific target organ toxicity (single exposure) – Category 3 STOT RE 2: Specific target organ toxicity (repeated exposure) – Category 2 Aquatic Acute 1: Hazardous to the aquatic environment - acute aquatic hazard - Category 1 Aquatic Chronic 1: Hazardous to the aquatic environment - long-term aquatic hazard - Category 1

Aquatic Chronic 2: Hazardous to the aquatic environment - long-term aquatic hazard - Category 2 Aquatic Chronic 3: Hazardous to the aquatic environment - long-term aquatic hazard - Category 3 · Key literature references and sources for data:

- Regulation (EC) No. 1907/2006 (REACH), amended by 2015/830/EU
- Regulation (EC) No. 1272/2008 (CLP, EU GHS)
- ECHA database on registered substances
- EU IUCLID Database
- Material suppliers' data
- \* Data compared to the previous version altered.
